Soft skills:

- Empathy and User-Centered Design.
- Attention to Detail and Accuracy.
- Analytical and Research Skills.
- Debugging and Troubleshooting.
- Active Listening and Feedback Incorporation.
- Technical Aptitude and Proficiency.

EXPERIENCE

UX Designer

Google UX Design Professional Certificate

June 2023 - Present, coursera

- Follow the design process: empathize with users, define pain points, ideate solutions, create wireframes and prototypes, test and iterate on designs.
- Understand the basics of UX research, like planning research studies, conducting interviews and usability studies, and synthesizing research results.
- Apply foundational UX concepts, like user-centered design, accessibility, and equity-focused design.
- Designed user interfaces with compelling interactions while ensuring best practices for usability , accessibility.

Web Developer - Frontend Development Internship

Ipdaa Tech

September 2019 - November 2019, Egypt

- Bringing a designer's concept to life with HTML, CSS, and JavaScript, bootstrap, jQuery.
- Production, modification, and maintenance of websites and web application user interfaces.
- Implementing responsive design for mobile sites.
- Building reusable code for future use.
- Optimizing web pages for maximum speed and scalability.
- Developed and improved user interfaces for web applications, resulting in 41% reduction in page load times.

System Administrator

ARHDG GROUP

March 2016 - September 2017, Egypt

- Previous experience as a certified MCSE system administrator before changing my career to web development and design.
- Configured, installed and maintained servers, network, VOIP, and the setup of local area networks for a hospital.
